

Top tips to become a Xero Hero

Multi-factor authentication

You will know that Xero is prompting its users to set-up a multi-factor authentication (MFA) so that you can log in quickly and avoid any interruption to your workflow.

We are being asked a lot by our clients how to set this up so our Xero Top Tips this month is concentrating on assisting you. Please [click here](#) to find the easy steps to follow.

If you are having any issues with setting up your MFA, Xero also provide a troubleshooting tips page, which you can visit [here](#).

Once you get set up, upon logging into your Xero account you will see a message advising you they have sent a notification to your mobile device to confirm it is you logging into your account. All you need to do is confirm from your mobile and you are in!

Looking for more top tips?

As a platinum Xero partner, we are well placed to advise on all aspects of the software. We match our clients' needs with cutting-edge technology and a dedicated chartered accountant to deliver pro-active management of finances. Our aim is to take the hassle out of your finances, helping you save time, make money and grow your business.

If you are looking for further advice as to how to get more out of your Xero subscription, contact **Ryan Alderson** to discuss our training and support packages.
